Insect Identification Resources

Websites

- <https://bugguide.net/> (United States and Canada)
- <https://www.pbbase.com/tmurray74> Tom Murray (New England and New York)
- <https://www.inaturalist.org/> (world wide)
- <https://extension.illinois.edu/insects/tip-sheets> (University of Illinois Extension tip sheets)
- <https://mothphotographersgroup.msstate.edu/> (Moths, of course; Mississippi State Museum)
- <https://www.insectidentification.org/> (find by state – lots of ads)

Your computer <https://www.google.com/> (search by image)

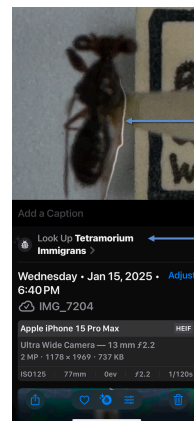

Your phone (take a photo and let AI help)

Most phones now have Artificial Intelligence capabilities. Just take a photo and let AI help.

Usually some sort of information icon associated with the photo.

Always verify. In this case, the order isn't even correct. Look for additional images/ information to confirm.

Trust, but verify
